

Maintenance is Value Preservation

inotech Meter Calibration Systems GmbH

Maintenance is Value Preservation

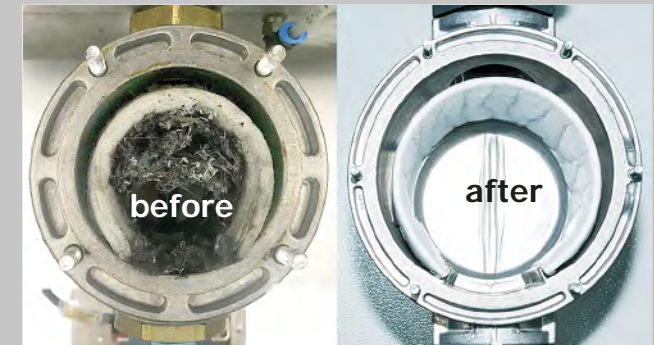

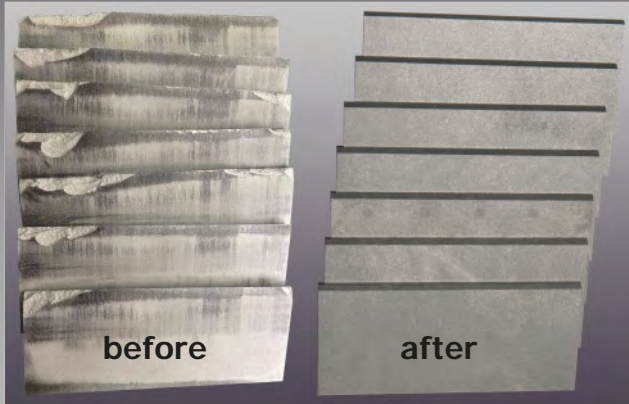

A significant factor for the success of the manufacturing companies is the availability of machines and facilities. Only then the production can run trouble-free. The slogan "Prevention is better than cure" is of course effective also in the maintenance field. Our yearly maintenance reduces unplanned facility downtime as well as unplanned repairing down to a minimum.

The inotech M.C.S. GmbH recommends a yearly maintenance of the test facilities. The inotech maintenance contract offers you the complete package of service and wear parts for an attractive price.

A one-day maintenance on base of a proven checklist complies:

- Exchange of wear parts (filter, carbon sliders of the pump, ... etc.)
- Visual inspection regarding the intactness of mechanical and electrical components
- Functional test of the test facility
- Proposals for additional preventive measures

Get now a sample quotation with a maintenance checklist from our homepage by following this QR-Code:

www.inotech.eu

Use this opportunity and you can get it for a special price, if you order right now our maintenance contract. until 31.12.2018!
